

Autumn Rayne Fitzpatrick

Frontend Web Developer

Career Summary

My name is Autumn Rayne. Armed with a Bachelor's in Digital Media & Web Technology, I am a Frontend web developer who has accumulated over two years of experience. From freelancing to personal projects, I enjoy building web applications, both small and large.

My tools of choice are HTML5, Vanilla JavaScript, and SCSS, but I am also well experienced with ReactJS and TailwindCSS. Currently, I am searching for an entry-level or internship position, which will allow me to expand my skillset and contribute to a team setting.

Work Experience

Home Office Assistant

Joyce A. Howard | Oct 2020 - Dec 2023

Worked as an office assistant under Joyce A. Howard for nearly three years. Honed my skills in managing taxes, budgeting, software maintenance, and providing crucial accounting support. Gained expertise in assisting with administrative tasks and utilizing Microsoft products like Word and Excel.

Freelance Frontend Web Developer

July 2023 - present

Utilized Vanilla JavaScript, React, and SCSS to craft frontend web applications of various. Acquired proficiency in crafting user interfaces that are both interactive and visually appealing. These interfaces are designed to be responsive across various devices and compatible with different web browsers.

Degrees & Certifications

Bachelors of Science

University of Maryland: Global Campus | 2023

Associates of Transfer Studies

Anne Arundel County Community College | 2021

Completed Projects

"The Unique Bean" | 2024

Developed a rudimentary UI for a fictional coffee shop. Utilized React to create an efficient and responsive UI, used Redux for stable state management - particularly as a form of local storage. Implemented features like product filter and, "add-to-cart" functionality.

ReactJS, SCSS, Redux State Management

Projects (Continued)

“The Balloon Gallery” | 2023

Using React and CSS, I built the frontend for a fictional party coordinating service. Leveraging React's features, I created a seamless user experience, with form and routing functionality. Crafted a visually appealing user interface that adapts across devices and browsers.

ReactJS, SCSS

“Headphones & Earbuds” | 2023

Built a sleek UI for a headphone and earbuds store using HTML5, SCSS, and Vanilla JavaScript. Added cart functionality, alternate light/dark modes, added in HTML elements via vanilla JavaScript.

HTML5, Vanilla JavaScript, SCSS

“JavaScript Image Editor” | 2023

This image editor includes CSS filtering capabilities, enabling dynamic image-altering properties. The modified image can be drawn onto an HTML5 canvas and downloaded onto your PC for safe-keeping. Styled with SCSS for visual appeal and functionality.

HTML5, Vanilla JavaScript, SCSS
